

International teachers exchange days

Very welcome to Dalarna February 12 – 14 for teachers exchange and job shadow day.

We are glad to invite teachers from Norway, Latvia and Estonia to our international teachers exchange days. The aim of the days is to find new ways of teaching to help students achieve their potential thru their company-year. We can take on 12 participants, 4 from each country.

You will have the possibility to work together with one Swedish teacher during one day at their school. All participants will be at different schools all over Dalarna. We will try to put participants from similar educations together so please make notes of what subjects and students you teach.

The homework for participants is to prepare a short presentation (2 minutes) about their work with the company program and the curriculum.

Accommodation will be at the Youth hostel in Falun or at similar hostels/hotels in other towns. Breakfast and linen included. All meals are included, dinner together on Wednesday and at different places on Thursday.

We need your registration no later than **January 31**. Register by e-mail to your national coordinator.
